

NCA Mobile Pay

A fast, easy and secure way for employees to pay for eligible benefit account expenses

What is NCA Mobile Pay?

Mobile payments are quickly becoming more prevalent as consumer demand for contactless transactions continues to grow. NCA Mobile Pay ensures your employer groups are able to meet this growing demand by enabling their employees to pay for eligible benefit account expenses, both in-store and online, using their digital wallet app on their mobile device.

How does it work?

To take advantage of NCA Mobile Pay, employees simply:

-  Open their digital wallet (Apply Pay, Google Pay, or Samsung Pay)
-  Enter their benefits debit card details
-  Accept the Terms & Conditions
-  Complete the authentication process, as prompted
-  Begin using their digital wallet to pay for eligible expenses

From 2016 to 2022, mobile payment transaction volume in the U.S. is projected to grow 36.6% year over year.*

What are the key benefits of NCA Mobile Pay?

- Allows your employer groups to offer a modern, convenient and secure contactless payment option for employee benefit account purchases.
- Uses tap-to-pay technology, which is more reliable and secure than other forms of payment. Plus, mobile devices often provide a layer of biometric authentication, resulting in safer transactions.
- Helps your employer groups promote healthy and hygienic behaviors as it eliminates the need for employees to touch payment terminals or pass their benefits debit card back and forth with cashiers.
- Employees can say goodbye to the hassle of having to carry their benefits debit card with them. Their mobile device is all they need to make eligible benefit account purchases.
